

## Plasterboard recycling

Yorwaste has recently introduced a new plasterboard recycling service.

The service involves Yorwaste putting dedicated skips on construction sites, marked 'plasterboard'.

When full, the skips are taken to Yorwaste's waste transfer facility, where the plasterboard is packaged before being taken to a plasterboard recycling plant at Immingham, where it is recycled and reused.

Our new service compliments other recycling services offered including construction & demolition materials, plastics, glass, paper, cardboard, cans, greenwaste & wood.
