Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation notice adds a household, commercial and industrial waste transfer station with treatment operation to the existing bespoke permit. This includes the addition of a D14 activity code and a separate list of wastes. The maximum quantity of waste for the operations on the existing permit has been reduced from 150,000 tonnes per year to 75,000 tonnes per year.

The operation being added to this permit was previously permitted on this site under a standard rules permit SR2015 No6 EPR/EB3502TN. The operator wishes to increase the waste quantity of this operation from 75,000 tonnes to 150,000 tonnes and add waste code 18 01 04 Non-hazardous 'offensive' healthcare waste to this operation.

The spelling of the facility address has been corrected from the previous version.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
