

**Yorwaste** take a recycling-led approach to the services we provide, seeing your waste as a resource, from which we aim to capture the best value. Here's an outline of the key steps in the waste journey for **confidential waste**, from collection from your premises to recycled products:

1

## Collection:

- Collection frequency varies depending on your requirements and will be agreed with you.
- The **confidential waste** is collected by a GPS tracked vehicle and driven by vetted staff from one of Yorwaste's specialist partners. The best vehicle is chosen in terms of environmental and operational needs. The confidential waste has a security tag attached and a receipt and waste transfer note is provided at the point of collection.

2

## Transfer:

- The vehicle takes the confidential waste to a secure facility.

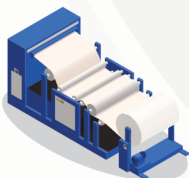

3

## Processing:

- If the waste is paper, it will be shredded and a certificate of destruction provided to the customer. The shredded paper is then baled and sold to a tissue mill.

4

## Manufacturing:

- At the tissue mill it is made into tissues or toilet paper.
